Summary

For the past two years, I've been working as a UI/UX designer while studying in the Informatics Study Program at the Indonesian Islamic University. I have a strong ability to think critically and creatively, which makes me highly qualified for the job. I'm skilled in design and programming, and I'm confident that I can compete with others in this field. My expertise lies in Design Research, UI/UX Design, as well as Mobile and Web UI Design.

Experience

DOT Indonesia - Malang, East Java, Indonesia

Feb 2023 - May 2023
